③ Read the following, then answer the Questions: (5 Marks)

There are about 285 million people in the world who are blind or find it difficult to see. However, not many of these people can read Braille. The problem is that Braille books are not cheap. The cost of making a Braille book is four or five times more than any other book. Technology can help blind people. Some of them can listen to news and information on smart phones. There are also "talking books" which blind people can listen to. However, some blind people prefer to read. Now, you can also buy Braille e-books. At the moment, these are difficult to make and expensive to buy. However, scientists are now working on Braille e-books that might be cheaper than Braille books in the future. These e-books might be the best way to help blind people. That would be good news for millions of people.
